THURSDAY, APRIL 1, 1875.

Town and Vicinity.

TO SUBSCRIBERS—Any subscribers to the DAILY INTELLIGENCER who do not receive their papers regularly, will confer a favor by leaving word at the office.

THE COUNTY ROAD—We are informed by Mr. Farabee, Superintendent of Gravel Roads, that the main line of road are open for traffic, except possibly in a few places. The snow in the fields has almost entirely disappeared, and travel is now confined to the gravel roads.

A LARGE CALF—Mr. S. Redick, of Ameliasburg, claims the championship as being possessed of the largest calf in the district. It was raised from an ordinary grade cow, and weighed 107 pounds at birth. This beats all previous records which we have seen this season.

GETTING READY—There are signs of life on board the tug boats wintering here, all of which are being got ready for active service. On the schooner in the harbor there is as yet little or nothing doing, but if the fine weather continues, rigging up will be in order within a week.

REMINISCE—Do not forget the sale of useful and fancy articles and musical entertainments in the basement of St. Andrew's Church this evening. The ladies of the Ladies' Aid Society will do their best to meet their friends and acquaintances, and to exchange goods for cash.

A SNAKE STORY—From a well on the premises lately occupied by Mr. Henry Cunningham, Ameliasburg, there have been taken not less than thirteen black snakes within two months past. Where the snakes come from is a mystery. Many snake stories are untrue, but this is no first of April yarn.

WORKMEN'S TEMPERANCE ASSOCIATION—The following members were elected as the staff of officers of the above Association for the ensuing quarter, viz: M. Nutty, President; W. H. Bosley, 1st V. P.; J. T. Quirk, 2nd V. P.; J. Cornelius, S. S.; J. Mullen, F. S.; J. Meacham, T. C.; and Frank Taylor, G. George Keyes, A. C.; C. Tuite, W.

THUNDER ON THE ICE—Last night, about 7 o'clock, whilst Mr. Hans Anderson, of Ameliasburg, was driving home over the ice, he heard loud cries for help from a man whose horse and sleigh had broken through the ice on the steamboat channel, about midway between the shores, and where the water is very deep. Struggling with his horse, Mr. Anderson hastened back on foot to render such assistance as he could to relieve his fellow traveller from the very dangerous position in which he was placed. Before reaching the submerged horse, Mr. Anderson himself broke through an air hole. He struggled to get on the ice, but without avail, and shouted loudly for assistance. The shouts of Mr. Anderson and the other person were heard on both sides of the bay, and strong parties set out from Belleville and from Ferry Point. Men and horses were finally rescued by the party from Belleville, after being in the water for nearly half an hour, but it is said that the gentleman whose horse broke through, and whose name we have not learned, sustained a raging and mowing machine. The ice is now dangerous in many places, and the above narrow escape affords fair warning to those who might feel disposed to trust to its strength. Every day the ice grows weaker, and too much care cannot be exercised in travelling over its surface.

MURDER CASE—The annual meeting of this Club was held on Monday evening, the 29th ult. After the admission of new members, the President gave a review of the work done during the past year, showing that eighteen new members have been added to the Club, that a number of valuable papers on scientific subjects have been read, a very pleasant excursion held, a successful conversation given, and the members of the Club established, and several valuable works procured for the purpose of starting a library in connection with the Club. He said credit was due to several gentlemen who had contributed to the entertainment of the meetings, especially to Mr. D. Ackert and Mr. J. D. Evans, for their beautiful display of Microscopes and Polariscope, and to those who so eagerly assisted at the conversations and rendered it such a success. The Treasurer read his report, showing that the finances were in a flourishing condition. The President then presented the collection of the conversations and rendered it such a success. MORNING DESPATCHES.

EUROPEAN.

MR. CHILDERS ON THE UNITED STATES.

An Alliance Recommended.

LONDON, April 1.—Mr. Childers, speaking at Postoffice last night, gave an account of his last American tour. He spoke in terms of high eulogy of America. The United States he thought was probably the most prosperous country in the world. He estimated in fifty years it would contain one hundred and fifty millions of inhabitants. While the progress of England was necessarily limited, he forcibly presented the reasons why England should seek the friendship and alliance of the United States.

AMERICAN.

THE PROSECUTION OF KU-KLUX.

Removal of a Capital.

PROSECUTION OF A MOR-MON FOR POLYGAMY.

Border Outrages in Texas.

CANAL FRAUDS.

LOUISVILLE, Ky., April 1.—The trial of the Todd County Ku-Klux was closed yesterday without interruption or trouble. Everything is quiet. The State Militia from this city has been recalled, the citizens of Todd County having formed a company of militia, under the command of County Attorney Brister, a brother of the Secretary of the Treasury.

NEW YORK, April 1.—An injunction has been obtained against the removal of the capital of West Virginia, from Charleston to Wheeling, until the courts have passed upon the constitutionality of the Act of removal.

A new trust deed of the Lick Estate of San Francisco is being drawn. It will differ from the original only in the liquid to relatives being increased.

SALT LAKE CITY, April 1.—The trial of George Reynolds, for polygamy is in progress before Judge Emerson, in the Third District Court. This is the first indictment and trial under the law of 1862, and will probably be made a test case.

NEW YORK, April 1.—Despatches from Corpus Christi, Texas, report several cases of finding dead bodies of both Americans and Mexicans along the border. In place, two Mexicans were found hanging to a tree, in another two Americans, who had been dead but a short time were found with horses and arms still near them. A large body of Mexicans is reported as having crossed the Rio Grande and making for Corpus Christi and Laredo. At the former place, business is almost entirely suspended and no persons are leaving town or coming in. Merchants say they will order no more goods until those outrages are checked and they are afforded some protection. The citizens held a meeting yesterday and requested the Government to furnish immediate relief.

NEW YORK, April 1.—An Albany despatch says, the Canal Board yesterday appointed a Committee, to consist of the Lieutenant Governor, Secretary of State, and Attorney-General, to investigate the canal system and alleged frauds, with power to send for persons and papers. They will also take up especially the system of appointing officers and employees, and to enquire whether there was a collusion with contractors in the appointment of engineers, inspectors and other officers.

FROM QUEBEC.

ELECTION MEETING.

French Ambassador.

FINE WEATHER.

QUEBEC, April 1.

The Chronicle this morning is almost wholly taken up with an account of the proceedings of a meeting of the supporters of Hon. Geo. Irwin, which was held at Inverness Corners, on Tuesday. The meeting, which was a very large one, was addressed by the Hon. gentleman at some length. At the conclusion, a very flattering motion was passed, commending the explanations given by Mr. Irwin of his political acts and pledging a strong support at the approaching election.

The Rev. Mr. Allison, who had held 2 years experience of Mission Work on the Labrador Coast, lectures to-night on the subject of that subject, its inhabitants, climate, &c.

Mr. Kilginn from the French Embassy at Pekin, arrived here yesterday, and after visiting the places of interest in and around this city, left in the evening for the west.

Weather very mild over the coast, with the indication of rain, high south-west wind.

News Condensed.

—A new Music Hall is to be erected in Toronto, to cost \$70,000.

—Toronto intends to import 200 English sparrows this summer.

—The S. F. Railway calls on Sunday, to finish the laying of the Direct Cable.

—Wm. Thomas Henley, telegraph engineer and contractor, London, England, has failed. Liabilities, \$5,000,000.

The Ice Gorges.

FINANCIAL DEPRESSION IN BERLIN

Important Testimony.

Beecher on the Stand.

NEW YORK, April 1.—The steaming *Westphalia*, from Hamburg, has arrived.

WASHINGTON, April 1.—Probabilities.—For New England, and the Middle States increasing cloudiness and rising temperature during rest of Thursday, with brisk south-east to south-west winds, falling barometer, followed by rain.

LEWISBURG, Pa., April 1.—The ice is gorged three miles below here, and the water is now within three feet of the great flood of 1865. Families along the river have been driven from their homes. Should the gorge break suddenly the damage will be great.

The ice is passing Williamsport safely, carrying with it 100,000 feet of logs per hour, which are supposed to have come from Pine Creek.

The Glen Union gorge is passing Lockhaven without hindrance, and the water is gradually receding.

LOSDON, April 1.—A special despatch from Berlin, says a financial crisis is feared there. Settlements on the Bourse are effected with great difficulty. There have been twenty-eight failures and two persons have committed suicide in consequence of the financial reverses.

PARIS, April 1.—Advice from Spain state that a force of Carlists have entered the province of Santander and will be followed by Don Carlos and the bulk of his army. It is supposed they are trying to penetrate to Castile.

LOSDON, April 1.—The steaming *Siberia*, from Boston, has arrived out.

FATAL ACCIDENT.—A fatal accident occurred at Long Point, Prince Edward, on March 31st, by which Mr. David Snider lost his life. He was assisting, with a number of others, to move a large house and its contents, and while the sleighs were in motion, he slipped and fell in front of the sleigh, and was killed.

A JUVENILE THIEF CAUGHT IN THE ACT.

SUICIDE OF THE DELINQUENT.

Arrest of an Hotel Thief.

DEATH OF A PROFESSOR.

POST OFFICE FRAUDS.

POTTERY, N. Y., April 5.—On Saturday night, Mrs. Erwin, a lad eighteen years of age, clerk in Hoyt's store, was detected stealing five dollars worth of dry goods. His parents reside in Newburg and were sent for, when Hoyt stated matters with the father for \$50, and then search was made for the boy. He was found in an out-of-door shed, having taken poison. Letters found on him revealed the fact that for some time he had been the victim of a black mailer in Lowell, Mass., who kept demanding money and goods from him at intervals, as the price for hush money, something that young Erwin had done, but what it was does not transpire.

NEW YORK, April 5.—Charles McLean, who hails from Troy, was held in \$3,000 bail, for robbing one of the houses in the Westminister Hotel of \$200 worth of jewellery and money.

The death of Prof. Walker, of Brooklyn, from an overdose of hemlock, was a remarkable case. He took hemlock for disease of the nerves, and when he found himself sinking from an overdose of the drug, dictated to his wife, in the interest of science, a dying statement of its effects. He was one of the victims of the National Hotel of Washington epidemic, and narrowly escaped with life.

A Washington dispatch says, investigations have been going on for some time in the Post Office Department, in regard to alleged corruption in mail contracts in the south-west. It is said that several clerks have been discovered to be acting as accomplices of contractors, and that they have tendered their resignations, which have been refused by the Postmaster-General, who has, however, endeavored to keep the matter quiet, for the present. The allegation is that these clerks have regular salaries from the contractors for altering the addresses and sifting them in getting contracts awarded.

TO SUBSCRIBERS.—Any subscribers to the DAILY INTELLIGENCER who do not receive their papers regularly, will confer a favor by leaving word at the office.

FOR QUEBEC.—The Chairman of the Finance Committee held for Quebec this morning, for the purpose of continuing to negotiate the sale of Town debentures.

PUTTING IN AN INK.—The Street Surveyor is now, in accordance with the instructions of the Council, engaged in opening Bear Street. He had a gang of men at work at 1 o'clock, filling up the excavation which Mr. Cronk had made. This action will precipitate an issue in the matter.

THE CELLS.—The donkey cages in the cells were occupied last night by three "tramps," who were glad to get a night's lodging anywhere. The cells need to be thoroughly cleaned and disinfected, as their odor is anything but pleasant at the present time.

PRESENTATION.—We learn that Hon. Malcolm Cameron, M. P., was so pleased at the success of Mr. F. Gearing, of Flint & Robertson's, in his examination, that he presented him with a valuable copy of Blackstone's Commentaries and invited him to spend a few days in Ottawa.

STILL FASADER.—The ice on the Bay is still strong enough to bear the weight of horses. This morning Mr. A. E. Wallbridge and others crossed with teams. Last night's cold helped the ice a little, but if rain should fall to day, crossing to-morrow will be an operation requiring a thorough knowledge of the ice, in order to avoid disaster.

THE DEPUTATION.—The joint deputation of County and Town Councils appointed to visit Industrial Farms and report upon their working, left for the west this morning. They will first visit the Waterloo House of Industry and thence proceed to Oswego and visit the Oswego Company Institution, which is about the best managed on the continent.

OPENING OF REAR STREET.—We are glad to notice that the Town Council have, though rather tardily, ordered the Street Surveyor to proceed with the opening of Rear Street, which Mr. Cronk has been endeavoring to block. This matter has "hung fire" for a long time, and the better rights of the people are defied the better.

FIVE BRIGADE.—A petition signed by the officers of the various Companies on behalf of the Fire Brigade, has been presented to the Town Council. In it the Council is asked to compensate the present Chief Engineer for some nine years of service, and to pay him in future the salary which was voted some years ago, in order to induce him to remain in office. This petition can hardly fail to accomplish the desired object, and we trust that it may be favorably considered.

"A BULL IN A CHINA SHOP."—Well, the animal was not exactly a bull, nor did the adventure take place in a china shop, but the brute in question was just as much out of place for all that. The animal was a dog, and the scene of the exploit was Brodin's drug store. The brute thought he could get out of the store through the window, and on finding himself stopped by the glass, waltzed around among the boxes, etc., to the tune of the entire destruction of several fragile but valuable articles. That dog may or may not remember the exploit hereafter, but Mr. Brodin most undoubtedly will every time he sees the dog.

SHADE TREES.—As the tree planting season is approaching it is highly desirable that those who intend planting should put out only those varieties best adapted for street planting. A writer on the subject says: "The sugar maple, although beautiful, is pronounced too large and stately for this purpose, likewise the elm, while the alant leaves late, die young, and emits a sickening odor from its branches. The horse chestnut grows too slowly, the willow is short lived and funeral, and the catalpa is ill shaped and of short existence. For contrast, the soft or curly maple is a beautiful tree and of moderate size, and the white birch, but lind is declared far excellence the street tree of North America."

CHARGE OF FRAUD.

The hearing of the charge against Hough & Twigg was resumed, according to adjournment. The evidence was concluded by 1 o'clock, and argument was set down for 2 o'clock.

A London chemist has discovered means for producing carbolic acid in a liquid form at very low cost, which, he thinks, renders practicable the long-talked-of engine in which this acid, in a gaseous form, shall be motor.

The Spring Freshet.

The water yesterday afternoon, close to Oxbow's, a very heavy rain, which had formed above Silla, and from which much danger was apprehended, before the morning and passed down without doing damage of a serious character. A heavy deluge of Mr. Mullet was in danger of being carried away, but it was mowed by chains, and so was saved.

A corpse, which was found at Latta's Mills, had a threatening appearance, but its safe delivery was hopefully looked for.

In the "still water" at and above Oxbow's Bridge, there was still firm, and seemed likely to hold on for a day or two more.

Should the June at Latta's pass away humbly, the flood of this year will have been less destructive than the average, as there will then be no further danger to approach.

The water in the river is lower than usual, but it is reported to be gradually rising, as the ice breaks up, and the streams tributary to the Merica will then flood to the waters of the main stream.

ALEX. BIRDSON, Station Observer, Belleville, 5th April, 1876.

Presbyterian Church, Madoc.

We have been favored with a report of the Presbyterian congregation of St. Peter's Church, Madoc village, held on the 1st of the present month. The financial and statistical reports were in every way satisfactory.

This congregation is made up from only one-fourth of the field that was occupied by the Rev. Mr. Whitman when he came here 17 years ago, and yet the membership for this year is 101, though there has been no material increase in population. The net increase during the year is 10. Number on the roll of the Sabbath School, 120.

The congregation is engaged in building a church in which they have invested within the last seventeen months \$18,000. About \$500 of this amount is from friends outside. It is intended to raise in the congregation \$3,000 during the present year for the purpose of continuing the work of building—the building committee hoping to succeed in getting it entirely enclosed—spire finished and the basement, which is large and commodious—completed so as to be occupied for worship. The probable cost of the church, when fully completed, will not be less than from \$15,000 to \$18,000. Though commenced with this aid they have paid their pastor's salary, and contributed \$101 to the other schemes of the church, and so satisfactorily prove the prospect that a restoration was passed unanimously to increase their pastor's salary by \$100.

This Church is large and by many not acquainted with the progress of the congregation thought to be unimportant, so that if the congregation continues to increase as it has lately, and the railroad should reach the village, even its present large dimensions will not be sufficient to contain this Church. Indeed, it will be one of the principal features of the place.

OTTAWA, March 6.

The House of Commons finished its business yesterday, with the reading of the Supply Bill. So soon as the Senate gets through, prorogation will at once take place. It is said that the Senate intends to reject the Equitable and Nainville Railway Bill, and to amend the Supreme Court Bill by striking out the clause preventing the Privy Council in England.

The City Council last night voted a bonus to the Canada Central Railway Extension to Pembroke.

The timber trade is much improved. A sale of 1,200,000 feet was made by a Montreal firm here.

Mr. Gouin, of the Russell House, will give the members of the press at present in the city a complimentary dinner to-night.

BOARD OF TRADE.

Honor to a Quebecer.

THE WEATHER.

Quebec, April 6th.

There was a good attendance at the annual general meeting of the Board of Trade, which took place yesterday. An attempt on the part of some of the members to control the election of officers failed.

Mr. C. Hat, of Quebec, has been elected a member of the Academy of Fine Arts, of Paris, after a competition of one month.

A few days of beautiful weather, which this year was 70, and he stood thirty-second on the list. There were 300 competitors.

There was a sharp frost last night, but the previous days, and many thick fogs were puffed away for want of accommodation.

NEW HAVEN, April 6.—The latest election returns show that the state is undoubtedly Democratic. The Senate is Democratic by a large majority. There are large Republican gains on Representatives, and the House is probably close.

SAN FRANCISCO, April 6.—The rear car of a train on the Northern Pacific Railway was blown off the track by a strong wind, and was precipitated down a ravine forty feet deep. Rev. Mr. Avery, of Tacoma, was probably fatally injured, and many others severely hurt.

NEW YORK, April 6.—The first meeting of the Joint Committee of the Board of Education and Trustees of Catholic Parochial Schools was held yesterday, but their proceedings were kept from the public, except the fact that a written proposition was submitted by the Parochial School Committee, specifying their demands. The result will be made known at a regular meeting of the Board of Education.

The steamer *Thomas & Holt*, and a canal boat lying alongside of her were sunk by an immense field of ice, while lying at pier 23, north river, yesterday. Lost to the steamer \$15,000; value of the cargo about the same.

RE-JUDGE James J. Roosevelt, formerly of the Supreme Court and Court of Appeals, died last night.

Arrived, the steamship *Porter*, from Havre.

CHICAGO, April 6.—The Democrats generally elect their ticket at the election in Ohio, yesterday.

In Toledo, Judge Mann, for Mayor, has 100 majority.

WASHINGTON, April 6.—Probabilities for the English the mild and pleasant state of clear weather will prevail during the rest of Tuesday, with no decided change in temperature, northeast to southwest winds and continued high barometer.

NEW YORK, April 6.—The steamer *D. S. Miller* reached New Hamburg from New York this morning, and will start for Poughkeepsie. It is thought she will get through. On the Hudson River Railroad today more ice is coming down the river, and the heavy train was forcing it upon the track between Schoharie and Catskills. The water has risen five inches since daylight.

NEWCASTLE, Mass., April 6.—Two hundred feet of the Newburyport Bridge has been swept away by the ice. Loss, \$7,000. The Railroad Bridge which has been damaged to the extent of \$3,000.

NEW YORK, April 6.—This morning two freight trains on the Pennsylvania Railroad collided near Bergen Tunnel, Jersey City, killing Charles Stockton, a brakeman, and destroying the locomotives.

Early this morning a fire broke out in the Franklin House, corner of Franklin and City Streets. The flames were extinguished after an hour's hard work. J. H. Moore, of Ohio, and T. Hartigan, guests in the hotel, were carried out unharmed by suffocation. An unknown man was taken out dead by the firemen. The building is owned by Mr. C. F. Conwell, and the loss will be about \$10,000; insured for \$15,000.

LONDON, April 6.—The reply of Rev. Dr. Newman to Gladstone's last paper entitled "Vaticanism," is published to-day. Dr. Newman quotes from various authorities to prove that the Pope is not infallible in the subject matter in which he speaks as a divine and supreme authority, and therefore, he says, the dead link between conscience and the Pope is impossible.

PARIS, April 6.—The Roman correspondent of the *Journal des Debates* writes that the Pope will take up his residence in the United States, if it should become impossible for him to remain in Rome, and says it was with a view to such possible emergency that Archbishop McCloskey was raised to the Cardinal's rank.

NEW YORK, April 6.—In spite of Judge Nelson's suggestion yesterday, to ladies not immediately connected with the suit to refrain from attending the trial, for at least a few days, the Brooklyn city court room was this morning contained quite a large number of female spectators. The floor and gallery were packed with an audience fully as large as on previous days, and many ticket-holders were turned away for want of accommodation.

THURSDAY, APRIL 8, 1875.

Town and Vicinity.

TO SUBSCRIBERS.—Any subscribers to the DAILY INTELLIGENCER who do not receive their papers regularly, will confer a favor by leaving word at the office.

PERSONAL.—The Hon. Dr. Schatz, M. P. for Lager, Manitoba, was here to-day, and was the guest of Mr. Bowell. He was to leave for the west this evening.

No. 2.—We are informed that the reason why No. 2 steam fire engine was not out at the fire yesterday, was that repairs were being made to the boiler.

RAILS.—There was a heavy shower of rain this morning, which lasted for but a short time. This was, we suppose, the first effect of the change which the appearance of the Aurora last night forebode.

NORTHERN LIGHTS.—There was a very brilliant display of aurora borealis last night. This celestial phenomenon is generally regarded as portending a change, which in this instance followed its appearance very quickly.

MAY DAY HORSE FAIR.—We are informed that arrangements are being made for holding the annual Horse Fair May Day, and that as soon as price lists and other matters are definitely settled upon, it will be announced.

NEW CHURCH IN PICTON.—The Episcopal Methodist of Picton are about to build a church edifice in Picton, for which they have secured a site in a central part of the town.

For APRIL.—We have received Messrs. Chisholm's Railway and Steamboat Navigation Guide for April. As a travelling companion this publication has been almost indispensable, containing as it does a vast amount of useful information, besides a quantity of interesting reading matter.

ST. GEORGE'S SOCIETY.—A meeting of the "sons of Morris" evening, will be held this evening in the Marble Hall, to determine in what manner they will celebrate the anniversary of their patron saint.

ANNIVERSARY.—The members of the Independent Order of Oddfellows are making preparations for celebrating the anniversary of the establishment of their Order in America, which will occur on the 26th of the current month. Doubtless the event will be celebrated with all the customary enthusiasm.

THE NORFOLK.—This popular little steamer will run on her usual route this season, under command of Captain L. Collier. She will leave Picton for Belleville every Tuesday, Thursday and Saturday, and on the alternate days from Picton to Napanee. Messrs. W. H. Campbell & Co. are the agents for Belleville. See the advertisement for particulars.

THE MARCHIONESS FIRE.—We learn that the children who were inmates of Miss Marchioness's Home were committed to the County Jail. To-morrow, they will be removed to a building at Marchmont, which is now being fitted up for their reception. The entire inmates of the institution have been temporarily provided with homes by kind friends.

Miss Billings's effects were saved, but Miss Marchioness's and Mr. Merry's were unfortunately destroyed.

VITAL STATISTICS.—R. Newbery, Esq., Division Registrar, furnishes us with the following statement of births, marriages, and deaths, registered in the town during the month of March: Births, 11; Marriages, 16; Deaths, 4. It is evident that neither births or deaths have been returned in full. The medical men are evidently to blame in this matter, and we would urge upon them the advisability of a more generous compliance with the provisions of the law.

OUT-DOOR SPORTS.—The continuance of fine weather and numerous other indications serve to point out that the season for outdoor sports is again close at hand. Whilst we do not agree with those who hold that an abnormal development of muscle is an indispensable condition precedent to human happiness, we yet hold that bodily exercise is more necessary to mental health and vigor, than it is by many given credit for being. As a rule, Canadians are not over-fond of outdoor sports, and the assertion has been made—perhaps not without foundation—that there is a deteriorating in physical ability. The young men of the old country row, play cricket, indulge in walking and running matches, leaping and other sports calculated to develop the muscles, and give a healthy tone to the system, whilst Canadians are content to let physical culture take care of itself, and to enjoy their own calm dignified in the enjoyment of an easy walk, or an occasional sail, or to lower the line in

DEATH OF THE EMPRESS OF CHINA.

LONDON, April 8.—The Times' Berlin special says Herr Rigi, editor of the Ultramarine, who was recently sentenced, in default of his appearance for trial, to imprisonment, for publishing an article insulting to Bismarck, has been arrested by the Austrian authorities at Salzburg, on the application of the Prussian Government. It is understood that he will be sent to Berlin, instead of Munich, where he was tried. The case is likely to attract much attention.

BERLIN, April 8.—It is reported that the Government intends to prosecute the German subscribers to the Carlisle fund for fomenting rebellion against a friendly power.

SINGAPORE, April 7.—The widow of the late Emperor of China died on the 27th March.

TERRIBLE EXPLOSION IN SAN FRANCISCO.

Several Persons Killed.

SAN FRANCISCO, April 8.—At the corner of Spear and Harrison Streets an explosion of great power occurred yesterday, in a frame building adjacent to Hathaway's bonded warehouse. The walls of the warehouse were crumpled in, and numerous of the buildings, including a saloon and dwellings, were blown to pieces, and in a few moments the whole was a mass of flames. A number of men, women and children were crushed by the falling ruins, and some perished in the flames. It is impossible at present to ascertain the number of lives lost or persons injured. The fire is now under control, being confined to an immediate vicinity of the explosion. The loss in the bonded warehouse is not less than five hundred thousand dollars. The adjacent property burned consisting of hay barn, coal shed, saloon and dwelling, perhaps \$25,000 more. Three bodies have been taken out so far.

SAVANNAH, April 8.—A Probabilities.—For New England and middle States, partly cloudy and cool weather will continue during the rest of Thursday, north east to south winds and falling barometer.

POLICE REPORT.—A Y. A. A. brakeman named Richard Ferley, of Albany, was run over in this city this morning and killed.

NEW YORK, April 8.—A man, giving the name H. S. Carson, says he is book-keeper for P. & H. Railroad Company, delivered himself up to the police authorities of Jersey City, and said he was a defaulter from the Railroad Company, to the amount of \$50,000.

LONDON, April 8.—The Times has the following: "No amount of argument can, we hope, lead sensible people into this country to invest their money into Railway projects in the Canadian Dominion, for not only is there no traffic for such Railways, but supposing there were, their owners are exposed to constant danger that the Dominion Parliament may grant subsidy for competitive Railways to run half a mile off. In this way the Canadian Southern has been built to ruin the province of the Canada Great Western. If belief in the value of schemes such as we have criticised, is too profound amongst Canadians, as we are told, we say again, let them find money at home. Millions of money have been presented to the Dominion already by this country."

PHILADELPHIA, April 8.—Lewis R. Loge, who killed his wife and cut his own throat, died this morning.

A detachment of 15,000 volunteers started this morning for Hazleton, and the 2nd detachment will leave this p. m. They are all attached to Col. Bennett's regiment.

NEW YORK, April 8.—There were a great number of strangers among the spectators in the Brooklyn City Court room this morning, and the faces of many of the men were unfamiliar to a regular attendant. Mr. Wilson's companion, Mrs. Field, is the only one who makes her appearance on the scene. Becher, who is in custody with his wife and son, and a few minutes after entered the witness chair. It was fully fifteen minutes after when the proceedings commenced.

Huntingdon Township Council.

TOWN HALL.

February 22nd, 1875.

Council met.

PRESENT: The Rev. Deputy Mayor, and Councillors Burrows, P. Robinson and Hamilton, Esq.

The minutes of last meeting were read and confirmed.

James Clements made application by petition for a Tavern License for the public house at 1875, also Wm. Brown and Mr. Hamilton made application for a license for Tavern License for the public house at 1875.

Moved, seconded and carried that said application be granted.

Thirty-five dollars were paid to the Treasurer for the interest on the loan of \$1,000 for the year 1874 and 1875, in the first installment of Huntingdon Township Council.

Moved, seconded and carried that said application be granted.

The petition of John Duncan was granted, allowing him the possession of a portion of the common road allowance at Lot 15, between 3rd and 4th concessions, until required, a road being laid in line thereof.

Moved by Mr. Gordon, seconded by Mr. Burrows, that ten dollars be given to a poor man named Blackburn, living in Huntingdon, and the Mayor, his family being afflicted with typhoid fever.—Carried.

An order was given to Mr. Reed for his services as Tavern Inspector for 1874, being fifteen dollars.

An order was given to W. H. Deen for four dollars to apply on his services for keeping the Town Hall.

A By-law was passed for the guidance of tavern keepers for 1875.

THE BONUS BY-LAW.

After a very long and thorough consideration of the provisions of the By-law under which it is proposed to grant a bonus to the Belleville and North Hastings Railway Company, for the construction of the line of Railway, and to Messrs. Pender and Lloyd for the erection of a new bridge over the Ottawa River, the Town Council finally passed the second reading of the measure, and it will accordingly go to the people. Some amendments were made, which were found particularly in one report of the Council proceedings, and the vote of the people will be taken on the 10th of May. The interests of the Town are so fully protected in the By-law, and the advantages which will accrue from the passage are so manifest, that we anticipate its approval by a very large majority of the ratepayers. We will publish the document entire tomorrow, when every ratepayer can scan it for himself.

Crooks vs. The Mail.

This case, which occupied the time of the Court for two days in Toronto, has resulted in a verdict for Mr. Treasurer Crooks for "twenty cents," upon which the Mail remarks:

"Before now 'wretches have hung that jury man down,' and the verdict obtained by Mr. Crooks at the trial of the case is so manifest, that we anticipate its approval by a very large majority of the ratepayers. We will publish the document entire tomorrow, when every ratepayer can scan it for himself."

Internal Economy of the House of Commons.

As soon as the House rose, the Committee on the Internal Economy of the House of Commons met in Speaker's room, at which the Ottawa, Free Press, Messrs. Anglin, Macdonald, Fournier, Burpee and Coffin, were present. The result of this meeting, the Free Press tells us, was as follows:

Mr. Pender receives an increase of \$200 in the French Translators' department an increase of \$100 each is given to Mr. Giguere and to Mr. Genard.

Two extra assistants in this department, in order to wind up the work. Mr. Lowe has been appointed in lieu of Mr. DeWitt, and Mr. R. Hartney, who is at present in the office, has been increased to \$1,400.

Mr. McDonald's salary as Seasonal Clerk has been increased to \$500 per session. Mr. Moffat, indexing clerk, receives an increase of \$100, making his salary \$1,000. The control and management of the Post Office of the House of Commons has been taken from the Clerk of the House and placed in the hands of Mr. Brantford, who is to receive \$400 additional salary for that responsibility, making his salary \$2,400.

Mr. Bourget receives a gratuity of \$500 in compensation for losses sustained by keeping the House of Commons open during the winter. An increase of \$200 was also added to the salary of Mr. Sloan, Stationery Clerk.

This is but one of the many examples we have of the economy practiced by the present Government. The House of Commons in this list will surprise the country. Why should a "seasonal clerk," whose duty extends over but two months, have his salary increased to \$600? \$300 per month to a seasonal clerk, whose duty extends over but two months, is something extraordinary. But the granting of a bonus to the "refreshment room" keeper of \$500, in consideration of losses, is incomprehensible, unless an explanation be found in the fact that Mr. Bourget is a brother-in-law of Dr. St. Jean, one of the representatives of the City of Ottawa, who never votes against the Government.

It will be remembered that so soon as the present Speaker was chosen, he filled the Chair. Mr. Karamagh, the former "refreshment room" keeper, was dismissed, he being a Conservative, and the present occupant appointed, to whom a gratuity has been paid out of the public funds.

People may well ask how these "losses" were sustained? Mr. Bourget is furnished at the public expense with rooms, fire, light, furniture, and other things necessary to carry on his business, having to furnish that which he sells. Where? In the House of Commons, where he is paid more than half the season, is something extraordinary. Town Council.

Monday, April 12.

The Council met at 8 o'clock, the meeting being a special one for the transaction of general business.

PRESENT:—His Worship the Mayor, Messrs. Brantford, J. H. Hamby, Sutherland, Northcott, Clarke, Durand, H. Hamby, Hunt, Hensell, Simpson, Holden and Fay.

The minutes of the last meeting were read and approved.

REPORTS.

College Street—Referred to Report Committee.

REPORT.

Of the Board of Health, that a place had been secured for the deposit of all that the dry earth system for night soil be substituted for the system now in use.

Dr. Durand gave notice of a By-law in accordance with the last clause of the report.

ORDER OF THE DAY.

Council went into Committee on Ways and Means. Mr. Holden in the chair.

On motion of Mr. J. H. Hamby, seconded by Mr. Brantford, the sum of \$25 was placed to the credit of the Board of Health.

On motion of Mr. Brantford, seconded by Mr. Hunt, the thanks of the Council and the sum of \$25 were presented to Wm. Curtis for services in blasting the ice in Coleman's pond when the bridges were in danger.

An account of D. Bradford for drawing No. 2 steamer to fire, was read and paid.

Committee rose and report adopted.

REPORT.

Council went into Committee on By-laws. Dr. Durand in the chair.

Mr. Simpson said since the introduction of the By-law, there had been several amendments made by Mr. Bell, in the By-law, in the interests of the ratepayers. They were trifling in their nature, and to save time, he moved that the clauses already read be taken as read, instead of reading all the amendments, and that the amendments only be read now.

The Clerk read the By-law clause by clause.

The By-law, as amended, proposed a bonus of \$20,000 to the Town and \$75,000 to the Works, instead of \$25,000 and \$92,000 as formerly proposed. The rate of interest is fixed at 7 per cent.

Mr. J. H. Hamby wished the By-law not to go into effect until the road is completed, as a two years interest would thereby be saved. He did not, however wish to press his motion, but thought it would be wise to let the people advance the time necessary for doing so. Our requirements this year would be very large, and his proposition would give us a two years relief from providing such funds. It would not affect the enterprise, but might affect the By-law before the people.

Mr. Simpson was prepared, and he thought the ratepayers were the same opinion, and they would not object if the parties went on with their works in good faith.

Mr. Northcott agreed with Mr. Hamby, that it might prejudicially affect the By-law before the people.

Mr. Clarke thought the clause should pass.

Mr. Simpson said the Solicitor informed him that the By-law must be passed to come into force this year, according to law.

In answer to Mr. J. H. Hamby.

The Solicitor said the By-law would, on account of the clause relating to the two representatives on the Board of Directors, but according to the charter of the Belleville and North Hastings Railway, the By-law would be entitled to but one representative.

The clause was amended so as to give the Town a Director of Directors, in accordance with the Municipal Act.

On the clause regarding the security to be given for the completion of the smelting works, if said smelting works should be completed, the clause should be amended accordingly.

Daily Intelligencer.

TUESDAY, APRIL 13, 1875.

Town and Vicinity.

BOARD OF EDUCATION.—A regular monthly meeting of the Board of Education will be held this evening.

THE CILLS.—Things are getting better, evidently, as there were no voluntary inmates of the cells last night.

A LONG SITTING.—The Town Council had a long sitting last night, its deliberations lasting until 11 o'clock.

TO SUBSCRIBERS.—Any subscribers to the DAILY INTELLIGENCER who do not receive their papers regularly, will confer a favor by leaving word at the office.

PERSONAL.—Thomas Eno, Esq., of Warden, was present inside the bar in the Council Chamber last night, and listened with much interest to the long debate on the bonus bill.

SHORT.—The Prince Edward duck hunters are on the war-path, and have made some havoc amongst the ducks, but the game is gradually growing shy and sport poorer, year by year.

CHANCERY SITS.—The Spring sessions of the Court of Chancery will open to-morrow at the Court House, Vice-Chancellor Blake presiding. There are some twenty cases on the docket, the hearing of which will probably occupy the Court for a week or more.

WANTED A HOUSE.—Houses are exceedingly scarce this Spring, and can, with great difficulty be procured. The prices are high and house hunters numerous. A short advertisement in our columns will cost but a trifle and save a great deal of tramping.

BOARD OF HEALTH.—The members of the Board of Health had a sitting yesterday, at which some important action was taken and reported to the Council last night. The report was not considered, but it will probably be adopted at the next meeting of Council.

MILITARY.—Heretofore no enlistments were made for A. and B. Batteries, Canadian Artillery, at Kingston and Quebec respectively, for a longer period than three years. Owing to A. battery being at present short of men, the proposed Branch School of Gunnery at Toronto cannot be established at present.

THE MARKET.—There has been but a small amount of business transacted on the market of late, as farmers are either engaged in the prosecution of their spring work, or are actively preparing for it. Owing to this cause, business is likely to be still more dull for some weeks than it is even now.

FISH SPERRING.—Numbers of boys have gone into the fish-sperping business, but "make themselves scarce" when the Inspector—who is constantly on the alert—makes his appearance. The fish which are now running up stream are chiefly pike, and the more of these "fresh water sharks" that are destroyed the better for the fish-farmer.

FISHING.—The fishermen on the bay are not making very large catches at the present time. They succeed daily in catching a few pike and suckers, which give but a poor return for their labor. Of course, this is not the fishermen's harvest time, and it may be as well to state that the quantity of fish in the Bay is gradually increasing, thanks to the vigilant enforcement of the laws.

CORPORATION DEBATES.—We learn that Mr. J. H. Hamby, Chairman of the Finance Committee, was thoroughly successful in his mission to Quebec, regarding the sale of Corporation debentures. Mr. Hamby, we understand, succeeded in placing all the debentures at a satisfactory figure, and a report on the subject will be presented to the Council at its next meeting.

THE MEMORANDUM QUINCY CLUB.—The musical public of Belleville and vicinity who have been charmed in the past by the delightful entertainments afforded them by this truly classic corps of artists, will be pleased to learn that the Club will make its fourth annual visit to Belleville on the 17th of April. On this occasion they will be assisted by the very highly accomplished vocalist, Miss Fanny Kellough, an artist highly spoken of by the leading musical journals of the United States. The plan will be opened at Harrison's to-morrow.

THE INTELLIGENCER.—The Brighton Express pays us the following handsome compliment:—"The new office of the Belleville Intelligencer is a model of neatness and convenience. The greater part of the outfit is new, and as a consequence, work is the very best description in being done. Having added steam to work the press, the large amount of his manual work is among the things of the past. They have

been very busy since getting into their new quarters, work coming in from all directions. The get-up of the Weekly and Daily editions of the Intelligencer is creditable to the publishers, and no expense is spared to make the leading paper of Central Ontario.

A. DRESIN.—Eggs have declined from 12c to 13c per dozen, the supply being large.

Wet.—Of late, we have received several soaking wet papers through the mails from New York. What is the reason? We suppose it must be that the mail bags get occasional immersion in their journey across the ice from Cape Vincent. It would be well for the Post Office Department to make some investigations into this matter.

CHARGE OF RATE.—A Brooklyn dispatch says: "This morning a Grand Trunk Railway engine driver belonging to Belleville, named Joseph Hamby, was brought before the Police Magistrate charged with attempting to outrage the person of a little daughter of Mr. Joseph West. The child upon whom the outrage was attempted, is only between four and five years of age. The case was adjourned until Monday morning."

A COLLISION.—We understand that a collision took place this afternoon between the Street Surveyor and Mr. Crook in reference to the opening of Rear Street. The account which reached us of the matter was that Mr. Crook attacked the Street Surveyor with a pistol, with which he struck Mr. Taylor over the head, and that the latter returned the compliment by striking his opponent in the face. The matter has caused great excitement, and the revolver is in the hands of the police.

THE ADVICE.—The *Advertiser* for March 13, at head, quote as heavily figured with good things as usual (which is saying much), and with some peculiarities demanding special attention. Artistically, it has many features of the first excellence. The first engraving is "The New Doll," admirably well done, but one of those things which seem a waste of fine labor, until you know it is a portrait of the daughter of the French writer, Edmond About, knowing which, the picture assumes a marked interest. "Evening Pigeon Coves," by Krusenstam, Van Allen, is a full page picture, with good coloring and execution. Two charming smaller pictures follow—"The Modern Adam and Eve," and "Fishermen's Daughters," both telling their stories to perfection. Then, we have another pair of companion pictures, "Confession," and "The Stillness of Death," both worth a world of study for their true conception and faithful execution. Then follow "Happy Hours of Childhood," according to the happy hours of a boy, and "A French picture," which may be set down as one of the most graceful successes in wood engraving, anywhere published within a long period. These excellent views of Herford Cathedral (west of England) conclude the art-contents of the number, a list of opinions in illustration, and speaking to all tastes in its variety.

Police Court.

(Before A. Diamond, Esq., P. M.)

TUESDAY, APRIL 13, 1875.

LEWIS SMITH, who put in a first appearance on the charge of being drunk, was discharged.

THE HEARING OF the charge against Mr. Lambart was resumed. Some further evidence was heard. Mr. D. C. Ferguson testified that the dog was vicious, and had attacked him last winter. William Climpson, George Hogsdill and John S. Martin swore to the same effect, and W. H. Scholes, E. R. Benjamin and H. Friend testified that they did not consider the dog vicious. Judgment was deferred until to-morrow.

MORNING DESPATCHES.

EUROPEAN.

A NEW RUSSIAN LOAN.

Satisfactory Assurance.

SUPPRESSION OF RELIGIOUS ORDERS IN GERMANY.

LONDON, April 12.—The Rothschilds have issued the prospectus for a new Russian loan of £10,000,000 with interest at 4½ per cent. per annum, to be issued at 92. Of the total amount £20,000,000 are offered for subscription in London. The balance is reserved for St. Petersburg.

BERLIN, April 13.—The North German Gazette accepts as reassuring the disavowal of violence intention by the French press. The Berlin Post says the draft has been completed of a bill prohibiting religious orders in Prussia, except those employed nursing the sick.

CHAMBER OF RATE.—A Brooklyn dispatch says: "This morning a Grand Trunk Railway engine driver belonging to Belleville, named Joseph Hamby, was brought before the Police Magistrate charged with attempting to outrage the person of a little daughter of Mr. Joseph West. The child upon whom the outrage was attempted, is only between four and five years of age. The case was adjourned until Monday morning."

A COLLISION.—We understand that a collision took place this afternoon between the Street Surveyor and Mr. Crook in reference to the opening of Rear Street. The account which reached us of the matter was that Mr. Crook attacked the Street Surveyor with a pistol, with which he struck Mr. Taylor over the head, and that the latter returned the compliment by striking his opponent in the face. The matter has caused great excitement, and the revolver is in the hands of the police.

THE ADVICE.—The *Advertiser* for March 13, at head, quote as heavily figured with good things as usual (which is saying much), and with some peculiarities demanding special attention. Artistically, it has many features of the first excellence. The first engraving is "The New Doll," admirably well done, but one of those things which seem a waste of fine labor, until you know it is a portrait of the daughter of the French writer, Edmond About, knowing which, the picture assumes a marked interest. "Evening Pigeon Coves," by Krusenstam, Van Allen, is a full page picture, with good coloring and execution. Two charming smaller pictures follow—"The Modern Adam and Eve," and "Fishermen's Daughters," both telling their stories to perfection. Then, we have another pair of companion pictures, "Confession," and "The Stillness of Death," both worth a world of study for their true conception and faithful execution. Then follow "Happy Hours of Childhood," according to the happy hours of a boy, and "A French picture," which may be set down as one of the most graceful successes in wood engraving, anywhere published within a long period. These excellent views of Herford Cathedral (west of England) conclude the art-contents of the number, a list of opinions in illustration, and speaking to all tastes in its variety.

Police Court.

(Before A. Diamond, Esq., P. M.)

TUESDAY, APRIL 13, 1875.

LEWIS SMITH, who put in a first appearance on the charge of being drunk, was discharged.

THE HEARING OF the charge against Mr. Lambart was resumed. Some further evidence was heard. Mr. D. C. Ferguson testified that the dog was vicious, and had attacked him last winter. William Climpson, George Hogsdill and John S. Martin swore to the same effect, and W. H. Scholes, E. R. Benjamin and H. Friend testified that they did not consider the dog vicious. Judgment was deferred until to-morrow.

ANOTHER OF THE PREMIER'S DENIALS.

During the last session of Parliament the country was startled with the contents of a letter from the Premier, Mr. Mackenzie, in which he stated that he had no intention of introducing a bill to amend the Manitoba Act. This statement was met with a great deal of surprise, and it was generally supposed that the Premier had been misled by some of his advisers. But now, after a further examination of the Premier's letter, it is found that the statement was entirely correct. The Premier had no intention of introducing a bill to amend the Manitoba Act, and he was perfectly justified in making this statement. The only reason why it was so generally supposed that he had been misled was because of the way in which the letter was worded. The Premier had said that he had no intention of introducing a bill to amend the Manitoba Act, but he had not said that he had no intention of introducing a bill to amend the Manitoba Act in any way. He had only said that he had no intention of introducing a bill to amend the Manitoba Act in the way which was suggested by some of his advisers. This was a very different thing, and it was perfectly correct for the Premier to make this statement.

OUR INDUSTRIES.

THE NEW INTELLIGENCER OFFICE.
 It is not inappropriate that, as one of our most important industries, we should have a brief account of the progress of the new Intelligence Office. This office was established in the month of January last, and it has since that time been engaged in the publication of the new Intelligence. The office is situated in the city of Montreal, and it is under the management of Mr. J. W. BAKER. The office has a large staff of writers and editors, and it is able to furnish the public with the most reliable and up-to-date information. The new Intelligence is published every week, and it contains a great deal of interesting and useful information. It is a very valuable addition to the public's knowledge, and it is well worth the attention of every one who is interested in the progress of the country.

News Condensed.

—Brookville is to vote on the Dunken Act on the 16th of May.
 —Butter is quoted at 18 cts per lb. in Brookville.
 —Annals Capital, current National, is 50 cts.
 —The loss by the Liverpool, N.S. 18, is calculated at \$2,000.
 —The number of deaths from small-pox in Montreal last year was 280.
 —The health of Sir Wm. Ligon, who is in Wales, is reported as improving.
 —A shipload of peddlers playing a brisk trade in Bruce County.
 —The Nova Scotia Legislature will propose about last May.
 —The operative strike at Great Falls, N.H., has ended, the hands returning to work.
 —Another half million of Tweed's property has been attached in Westchester County.
 —Mr. Andrew Allan, of Montreal, paid \$2,000 for carriage taxes last year.
 —It is thought that Wm. M. Tweed will shortly be released from confinement.
 —Three stone coffins of great antiquity, two of which contained human remains, were found in Dunelm recently.
 —The Jewish College at Buenos Ayres has been burned by a mob, and some of the priests wounded.
 —It is proposed to supply Guelph with water from the river Speed by a system of works, to cost about \$25,000.
 —The first of the new line of steamships from the Laurentian Mountains, in the vicinity of Grenville.
 —The Prince Edward Island Legislature has authorized the expenditure of \$5,000 on the erection of a new Lunatic Asylum.
 —The dead body of an infant was found in Ottawa on the 16th inst., where it had been thrown under the snow for a couple of months.
 —Richard Duggan, of Toronto, dropped while walking along the street on the 16th inst.
 —In Guelph and other centres of the salt industry the work is being started for the season.
 —An Oswego telegram announces the arrival of the first of the season of the steamship S. Edwards, from Niagara River.
 —It is stated that the police have seized a large number of immoral productions printed at Sherbrooke, and found in possession of French immigrants.
 —A witness in a Catechist law office describes the poverty of a field of corn as follows: The crop was so small and short that the birds could not get on their hands and pick bugs off the tassels.
 —A negro in a restaurant near Berlin received a water that he could drink thirty glasses of brimley in succession, but after the thirty-sixth glass he dropped dead on the spot.
 —A grand pilgrimage to Jerusalem is to start from Montreal on Thursday, April 22, at noon. The price, including passage and provisions, is fixed at 1,300 francs first-class, and 1,160 francs second-class.
 —The difficulty between the bricklayers and their employers, in Toronto, is likely to be settled. The rate of wages is to be 27 cts per hour during summer, and 25 cts per hour in the winter.
 —The Primitive Methodist Conference, which was in session at Toronto this week, closed on the 16th inst., without passing any resolution respecting a union with the Methodist Church.
 —The grain in store at the Great Western depot, Hamilton, amounts to 240,000 bushels, and the floor to 25,000 bushels. About 9,000 bushels of flour are stored at the Hamilton and Lake Erie Station.
 —Henry Fitzsimmons was tried at the Assizes at St. Thomas, on the 16th inst., on a charge of murdering old Dr. Nimham in that town in September, 1872, and convicted of manslaughter.
 —A woman in Ottawa called at a store on the 16th inst., and asked permission to leave a basket with her for a few moments. She failed to return, and the grocer, on examining the basket, found that it contained an infant several weeks old.
 —A Bill to tax Insurance Companies was discussed in the Nova Scotia Assembly on the 16th inst. The bill would exempt companies from the operation of the Act, but they were placed in the same position as marine, accident and fire companies.
 —Not long ago the notorious "Whiskey" Mason was a counterfeit detective in the American Secret Service employ, and trapped a man for a large sum in being tried in New York for doing some counterfeiting on his own account. This appears to be according to the eternal circularity of things.
 —Mrs. E. L. Irwin, described as a highly respectable young widow, of Hamilton, made a clothes-line round herself and her little girl, fastened the other end to a stake in the ground, and, taking the child in her arms, she walked into a creek, and both were drowned. Financial embarrassment and disappointment in love are understood to have been the cause.
 —Geo. S. Phillips, Solicitor of Galt, committed suicide on the 16th inst. He was found at 7 o'clock lying on the floor of his bedroom with a knife wound in his chest. A rifle was found beside him with a piece of cloth tied to the trigger, with which he had killed himself. At the coroner's inquest held on the remains, the jury returned a verdict of "Suicide while under the influence of temporary insanity caused by the use of stimulants." Mr. Phillips being in the habit of using chloral.

Daily Intelligence.

SATURDAY, APRIL 17, 1876.
NORTH VICTORIA.—The North Victoria election trial was continued yesterday, but no new witnesses were examined. The case was postponed until some time next week.

ADMINISTRATOR.

General O'Grady Hail is expected to arrive in Ottawa next week, to attend the affairs of State during His Excellency's absence in Europe. The Vice-Royal party, accompanied by Dr. Grant, will leave the first week in May.

ELECTION CASE.

The Prince Edward (Dominion) election case came up in the Election Court before the Chancellor on the 16th, when Mr. Hodgins, Q. C., obtained an order to dismiss petition, on the ground that petitioner had made default in giving security, pursuant to 58 Vic., c. 10, sec. 8.

BALLOON ACCIDENT.

A party of three persons ascended in a balloon at Paris yesterday, the 16th, for the purpose of making scientific observations. The balloon attained the extraordinary height of 8,000 metres. Two of the ascendants were informed that when the balloon reached the ground the third was almost invisible, and has since been so ill that his recovery is doubtful.

BELMONT DETERMINED.

If the Paris *L'Union* reports correctly, Prussia has again abandoned Belgium on the subject of the anti-Prussian pamphlet published at Antwerp. His persistence in demanding the suppression of a pamphlet written by a highland ecclesiastic can hardly be viewed in any other light than that of a highland folly, and it looks as if he was determined to provoke a quarrel.

NAVIGATION ITEMS.

Navigation on Georgian Bay is reported from Owen Sound to be now open. No ice is to be seen from that point. The southern winds have driven the ice back into the harbor at Port Burwell, and clear water is nowhere to be seen. A Port Colborne telegram says: The ice to-day, after last night's storm, was off this harbor, then it did not look commencing to break up. It has now the appearance of being broken and pulled together. The wind has been north-west all day, fresh and cold, with occasional snow squalls.

BELMONT SPEAKS.

The Bill abolishing those clauses of the Constitution which grant independent administration of ecclesiastical affairs, the unpopularity of the influence of the religious associations with their superiors, and the religious of clerical appointments, passed its second reading yesterday in the Lower House of Prussia. In the course of the debate, Prince Bismarck said the Government was loth to proceed to such measures, but they were unavoidable. Since the Vatican Council no one possesses the influence of the Pope had. With a compact party, well organized, peace, and an army of obedient priests, this power would be serious even if it belonged to a native instead of to the foreign monarch. That monarch if he had the means, he would carry out his programme in Prussia, but he would first have to destroy the majority of the Prussian people. The Prince closed his speech with these words: "When all the breaches in the bulwarks of the State caused by granting to native rights to non-native subjects are repaired, then will we be able to conclude peace."

FEW PERSONS WILL BELIEVE THAT A GOVERNOR, ACTING UNDER THE ADVICE OF MINISTERS, WHO, CERTAINLY, MUST HAVE KNOWN WHAT HE HAS TRANSMITTED TO HIS COUNTRYMEN, CAN BE SUBJECT TO AN ANNUAL INCREASE OF SALARY TO HIS PROVINCE, WITHOUT DELIBERATELY INTRODUCING INTO A SPEECH AT THE OPENING OF HIS LOCAL LEGISLATURE A STATEMENT OF SO MUCH IMPORTANCE, WITHOUT HAVING FULL AUTHORITY FOR SO DOING.

And most people will think that an arrangement had been made with Manitoba. Well may they ask, why the people's representatives were deceived in this particular. Why is it necessary for the first Minister of the Crown in Canada to make a denial of a fact which was sure to transpire at an early day? The only solution that can be given is, that the Ministry was determined to prevent Parliament, at its own sitting, passing an opinion which, in the hope that something might transpire before next year to justify this attempt to secure the Manitoba votes in favor of themselves.

MR. MCKENZIE WILL LEARN TO READ SUCH VERGEMENTAL AND SENSITIVE.

On this subject the Mail remarks: "On the 22nd April, Mr. Mackenzie-Bowell, when he was in Parliament, asked the First Minister if the portion italicized was true, and if true, whether the papers referring thereto would be laid before the House. Mr. Mackenzie would be laid before the House. Mr. Mackenzie declared that it did not. The paper was so unlikely to be correct—it was so improbable that words would be uttered at the opening of the Legislature of Manitoba by the Governor of the Province (words now shown to have been correctly telegraphed)—which were in accordance with the fact, that several persons who listened to the Premier's speech answered him that it was quite evident he was not keeping close to the truth, and that evidence would yet be forthcoming to establish the extent of his equivocation. The question of veracity is between the Premier's declaration of Mr. Mackenzie and the official assertion of the Lieutenant-Governor and the Government of Manitoba; and we apprehend most people will incline to the belief that the latter are far more likely to have expressed the truth. The merits of the subsidy we do not now discuss, since the material wherein to base an opinion is now before us; but we have no doubt that Mackenzie's denial, notwithstanding the Premier's denial, the Privy Council had issued an Order in Council increasing the annual subsidy to the Prairie Province in the manner and to the extent stated in the extract from Mr. Morris's speech which we have quoted. What's the answer for a Premier voluntarily to place himself in."

THE BELGIAN DIPLOMAT.

In the Belgian Chamber of Representatives, the Minister of Foreign Affairs stated in substance the policy of the German Government to the note from Belgium, the text of the former being French. The Minister of Foreign Affairs stated in substance the policy of the German Government to the note from Belgium, the text of the former being French. The Minister of Foreign Affairs stated in substance the policy of the German Government to the note from Belgium, the text of the former being French.

SPORTING INTELLIGENCE.

The Canadian *Sporting Times* says that the Clifton House at Niagara Falls, is being put in order for the reception of a large party of English gentlemen en route for the great plains of the Mississippi. "The party will consist of over one hundred persons, exclusive of thirty-five servants, and sixty dogs. They are going to the great plains, and will remain there till fall, then proceed towards San Francisco. The guides, horses, and half-breed hunters for the English gentlemen are all engaged. Among the party will be found carmen, baronets, &c. They represent the aristocracy of England."

When, on the night of the 26th of December last, the building from which the fire, and most of the material destroyed, the premises in which the office is now located were secured.

The building was new, situated in a central and in a good business locality, but there was much work to be done before it was fit to be used as a newspaper office. The third story had to be added and plastered, and parties had to be put up on the second floor the stairs had to be shifted, supports put under the floor above, and a few other changes made, including the building of an additional brick wall; on the ground floor the boiler had to be placed and bricked in, partitions to be put up for the separation of the Counting-room and Manager's office, and the addition of a new staircase to support the heavy presses and engine on the floor above, besides the cutting of a doorway through the main wall to afford an entrance to the Counting-room from the street. The Counting-room was a large room of 4,000 gallons of water, was built at the rear or eastern end of the cellar, for the purpose of supplying water to the boiler. A new steam engine of 6-horse power, vertical and of the latest pattern, was, with the boiler, containing all the latest improvements, purchased by Mr. L. I. Walker & Co. of this town, and so far has given entire satisfaction. The necessary shafting and wheels were furnished by Messrs. J. M. Walker & Co., which also repaired much damage done by fire, and put steam fittings on such of the presses as were not so finished. The portion of the building occupied by the INTELLIGENCER Printing Company and the entire upstairs were fitted by Mr. W. L. I. Walker & Co. for steam heating, which utilizes the exhaust steam which would otherwise be wasted, and provision is also made for using a jet of "live" steam, when necessary, for heating the presses. On the ground floor is the Manager's private office—a comfortable little room, and the book-keeper's department in which is the large brick safe, for the storage of books of the establishment and important documents of all kinds. Entrance is obtained from Market Street, in rear of Messrs. Moore & Cox's.

On the 16th inst., without passing any resolution respecting a union with the Methodist Church.

The grain in store at the Great Western depot, Hamilton, amounts to 240,000 bushels, and the floor to 25,000 bushels. About 9,000 bushels of flour are stored at the Hamilton and Lake Erie Station. Henry Fitzsimmons was tried at the Assizes at St. Thomas, on the 16th inst., on a charge of murdering old Dr. Nimham in that town in September, 1872, and convicted of manslaughter.

A Bill to tax Insurance Companies was discussed in the Nova Scotia Assembly on the 16th inst.

The bill would exempt companies from the operation of the Act, but they were placed in the same position as marine, accident and fire companies. Not long ago the notorious "Whiskey" Mason was a counterfeit detective in the American Secret Service employ, and trapped a man for a large sum in being tried in New York for doing some counterfeiting on his own account. This appears to be according to the eternal circularity of things.

Mrs. E. L. Irwin, described as a highly respectable young widow, of Hamilton, made a clothes-line round herself and her little girl, fastened the other end to a stake in the ground, and, taking the child in her arms, she walked into a creek, and both were drowned.

Financial embarrassment and disappointment in love are understood to have been the cause. Geo. S. Phillips, Solicitor of Galt, committed suicide on the 16th inst. He was found at 7 o'clock lying on the floor of his bedroom with a knife wound in his chest. A rifle was found beside him with a piece of cloth tied to the trigger, with which he had killed himself. At the coroner's inquest held on the remains, the jury returned a verdict of "Suicide while under the influence of temporary insanity caused by the use of stimulants." Mr. Phillips being in the habit of using chloral.

THE REVIVAL EXCITEMENT.

The revival excitement in London continues. Four crowded meetings were held yesterday. At one of them, held in Spurgeon's tabernacle, many special references were made to the Christian Ministry. Mr. Moody delivered a stirring address, closing with an appeal to his audience to be in attendance at the work for Christ, to which thousands responded by rising.

Debate in the Senate upon the

Requirement and Necessity of the

Canadian Pacific Railway.

Mr. Scott moved the second reading

of the Bill to authorize the construction of

a railway from Esquimaux to Nanaimo, in

British Columbia. He said that, owing to

the failure to carry out the terms of Union

with British Columbia, it became necessary to

enter into negotiations with him, in order to

secure the completion of the line to the

Pacific. He said that the Government of

British Columbia, Mr. Edgar visited

him, and that he had been very successful

in carrying out the terms, or building the

Pacific Railway. It was then suggested

that the Government of Canada should

build a railway from Vancouver to

Victoria, and that the Government of

British Columbia should build a railway

from Esquimaux to Nanaimo. The

Government of Canada, however, had

been obliged to extend very considerably

the line of the Canadian Pacific Railway.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and small brown spots, possibly due to age or handling. A dark horizontal band is visible near the bottom edge, which could be the binding or the edge of the book block.

WEDNESDAY, APRIL 21, 1875.

Town and Vicinity.

COURT OF CHANCERY.—This Court concluded its labors after a week's sitting, yesterday forenoon.

LOCKERS.—There were five of them in the cells last night. It is now beginning to be thought that the cells should be removed into the basement of the market house, and an additional number erected.

A BACKWARD SEASON.—The usual course of the seasons has been entirely deranged this year. Our "January thaw" came in February; "March winds" are now blowing in April; and the coming of the "April showers" may, we suppose, be expected in May.

GRAIN MARKET.—The tendency of the grain market is slightly upward. Rye sells at 67c to 68c per bushel; Peas at 80c to 82c; and oats at 43c to 45c. These are the only articles much dealt in at the present time, and the value of the rest down to the demand which has arisen for the purpose of filling up cargoes.

HEALTHY TOWN.—But little effort seems to have been made to comply with the order of the Board of Health, requiring the cleansing of all premises by the 25th inst. As there are only four days more in which to act, action is necessary in order save costs, if the Board take energetic steps to enforce the carrying out of their order.

THE MILES.—The ladies of the M. E. Church will hold their tea meeting this evening. It is expected that a large amount will be realized towards the erection of the new church edifice, the lot for which has been secured on the hill, nearly opposite the Roman Catholic Church. The site is one of the finest in town.

THE ICE.—We are informed that the ice in Bay has been greatly strengthened by the cold weather of the past few days, and that it is now quite firm and strong, so that it is now safe to go out on the ice, whereas it was soft and spongy a week ago. The waves raised by the late high winds continue to break it up slowly, but no opening of navigation need be expected until warmer weather has prevailed for some days. There is scarcely a precedent for this sudden stoppage to the break-up of the ice which the extreme cold weather of this week and part of last week has caused.

ONE OF THE WITNESSES.—The Milleries or Associates present to this, prophetic souls once in a while by prophesying that the end of the world will come in the near future, and when their predictions are not verified they go on the same as before, taking another turn at prophesying when they feel inspired or may be depressed. Their last effort in this line was a bold prophecy that the "crack of doom" was upon us on either the 6th or the 19th of the present month. However, as both these dates are past, and the terrestrial globe hangs in about the same position as before, and nothing on its surface seems changed, these would-be seers must admit that they are once more mistaken. If they have nerve enough to keep on prophesying, they will succeed eventually, though the less frequently they prophesy the fewer failures they will have to lament.

CHECKER CLUB.—The officers for the ensuing season are as follows:—J. C. Starling, Esq., President; A. Robertson, Esq., 1st Vice-President; J. P. Reeves, Esq., 2nd Vice-President; Prof. Dawson, Secretary-Treasurer. General Committee, Messrs. Beatty, Sewell, Hawley, Mainland, Garratt, Thomas and Bordenall. It has been decided that the fee for membership shall be four dollars, but that all students in actual attendance at any school or college in Belleville may become members of the Club on payment of half the usual fee, and that no one shall be allowed to practice on the cricket ground, except the members of subscribers to the Club. Among the matches to be played on the Belleville ground will be those against Montreal, Kingston, Port Hope, Ottawa and Prescott, for which the Club will practice diligently. The matches already arranged for are against Lindsay on the 22nd May, and against Port Hope on the 24th. All who purpose joining the Club for this season are requested to be present at the Club meeting at the Hawley House on Friday, 23rd inst., at 8 o'clock p. m.

THE WEATHER WE MAY EXPECT.—Prof. Schumacher, the meteorologist, whose remarkable predictions concerning the physical perturbations which accompanied the late eruption of Vesuvius, received a no less remarkable fulfillment, in the prediction that the period from the 15th of June, will be a season of high electric tension in the atmosphere, many thunder storms, probably many rainfalls and violent winds, such as water sports and tornadoes. The cyclone occurs again about the middle of October. The phenomena twenty days before and after should, he says, be particularly noted. He claims that there are meteorological cycles

which are influenced by the equinox of Venus, and the record of the phenomena he adduces not only proves the occurrence of perturbations at these equinoxes, but that they begin to manifest themselves as early as twenty and sometimes even as thirty days anterior to the occurrence of the equinox, and may continue as many days subsequent to it. The exact day of bad weather cannot be foretold, but the immediate locality of the perturbations, by means of this system he claims to be able to tell where the disturbance will be felt least, and where it is liable to be the greatest. Professor Tice may be a very wise man, but he makes some highly unaccountable predictions. We suppose the naughty Venus must be blamed for all the unreasonable weather which we are now experiencing.

Marine Notes.

The St. Lawrence is open from Cape Vincent to Clayton, and a steamer made a trip on Saturday.

The *Orange* *Pullman* learns that a sand bar has formed in the channel between the piers at Fair Haven and that some dredging must be done before deep laden vessels can arrive at or depart from that port. Soundings are being made by Austin, the agent of the coal company, and the report will be sent to Col. Wilson. If found necessary a dredge will be detailed for a few days to dig the sand.

It is reported that the *Welland* canal will open next Monday, 26th inst., weather permitting. The steamer *Lake Breeze* has been engaged to make a three months' cruise with a crew company on Lake Superior. The *Lake Michigan* was visited by a storm of more than usual violence on Friday, and lumber vessels were driven back to Chicago. The *Lake Ontario* was in fact some of the "hookers" was punished by the ice.

Chicago sailors were \$2 per day, but vessel owners are not willing to pay over \$1.50. Captain Williams and a crew of seven men are engaged in raising the iron with which the *Shoemaker* was loaded when she stranded on the Dusk, Lake Ontario, last fall.

Court of Chancery.

MILES vs. SMITH.—After a lengthy argument of counsel on both sides, His Lordship gave judgment dismissing the Plaintiff's bill with costs.

McCOMACK vs. McCOMACK.—This was a bill filed for a partition and administrator of the estate of the late John McComack, who was so suddenly killed by the falling of a tree last September. Deeds for Plaintiff with a reference to the Master to take the usual accounts and make the usual divisions. Flint & Robertson for Plaintiff; Messrs. Frazer, Holden and Thomas for Defts.

RYAN vs. McCOMACK.—This was a bill filed to restrain the sale of the land in the *Schoemaker*. Relief was obtained by an injunction at the instance of the wife set down, to settle the question of costs between the parties. Flint & Robertson for Plaintiff; Hon. L. Wallace for Defts.

TENLEY vs. WALLACE.—Bill filed by the Plaintiff for specific performance of an agreement to convey lands. Defts. for Plaintiff with reference to Defts. to ascertain what title stands. Bethune and Chute for Plaintiff; Dickson for Defts.

Several cases were postponed until the next hearing.

Police Court.

Before A. DICKSON, Esq., P. M. J.

WEDNESDAY, APRIL 21, 1875.

CHARLES CORBY was charged with assaulting Andrew Austin. Plaintiff stated in his evidence that yesterday morning he was passing up street. Defendant stood in the door of Pot's liquor store, and accosted him with very gross language. Witness turned around and replied in a still grosser manner. Defendant followed him up, and struck him several times, and with a cash box. Witness then retaliated by striking the defendant, and they were separated by the police, who arrested him. Netherly told him that Corby was going to beat him. For the defence, Alex. Netherly stated that he was inside Pot's store, and heard Mr. Corby speak politely to Austin. He did not use the language charged by Austin. Did not tell Austin that he was "going for him," but said somebody would, as plaintiff had used bad language to him (witness) the day previous. The Chief of Police was sworn emphatically to deny the plaintiff's statement concerning his share in the matter. Did not see Sgt. McCracken jerk plaintiff. The Magistrate held that the evidence of Mr. Netherly disposed of the case of the plaintiff, he being a disinterested person. It was no legal justification to commit an assault on account of language used, but such gross language forced on one the duty of defence. In consideration of this, he would impose a light fine of that of \$1 and costs.

The *Cobourg* *Wagon* is responsible for the following:—They have something of a joke on two of the roads of Kingston. They lately entered a sleeping car to go to Toronto, went directly to bed, tucked themselves in,—pretence to dream. In the morning they awoke, having spent a most agreeable night, and were prancing the smoothness of the road, when one of them chanced to look out of the window and discovered that they had never left the Kingston Station, the train having been called in consequence of an accident. The Grand Trunk is a mighty smooth road.

THE HUMAN HAND.—To give it strength and lustre, to improve its texture, to prevent its falling out and quicken its growth—short to make it as intended, the growing personal charm of both sexes—their skin, their hair, their complexion, will be accomplished, if faithfully used. There is a stimulating property in this preparation, which greatly increases the growth of the hair, and at the same time renders them smooth, silky and elastic.

IF A MAN WANTS A LOT OF WHISKY, let him get a bottle of *Dr. Williams' Pink Pills*, and he will not need a bottle of "Black & White," or "Canadian," or "Irish," or "Scotch," or "Old Blend," or "Medicine." ARRIVALS.

St. Louis, April 21.—An unknown negro visited the house of a wealthy farmer near Tipton, Mo., on Monday, during the absence of the members of the family, and attempted to ravish Mrs. Newkirk. One of Mrs. Newkirk's daughters gave the alarm to her brother, seventeen years old, who was working in the adjoining field, while another daughter, only ten years old, seized a pick-axe lying in the yard and dealt the negro a blow on the head. The negro fled, followed by the son, with a shotgun. Pursuing was kept up about seven miles, when he was overtaken and four loads of bird shot fired into him, but he was not overpowered until a pistol ball was sent through his lungs and which brought him down. He died in a short time.

WILKESBORO, Vt., April 21.—Last night all the boiler and mill mules had a meeting and determined to strike.

CLEVELAND, O., April 21.—The Iron mills at Newburg resumed operation. The puddlers who have been on a strike all winter, returned to work, accepting the Pittsburgh prices.

LOUISVILLE, Ky., April 21.—Reports from all parts of the State say great damage was done to fruit and tobacco plants by the frost and snow of last week. Last season was a very bad one for the tobacco growers in Kentucky, and much destruction has followed in consequence. Another bad season which seems probable will greatly increase the suffering. Other crops, however, seem not to be greatly injured.

BOSTON, April 21.—The City Council last evening voted thirty thousand dollars towards the Centennial celebration on the 17th of June, of the Battle of Bunker Hill.

LOANSPORT, Ind., April 21.—Eight railway employees and a merchant here were arrested yesterday for systematically robbing of railway freight trains. A large quantity of property has been recovered.

NEW YORK, April 21.—Arrived, the steamship *Pomona*, from Hamburg.

Bernard Quigley was fatally stabbed by his brother-in-law, John Meyers, in a family quarrel in Brooklyn last night. After slaying Quigley, Meyers lifted his brother-in-law on his shoulders and carried him into a saloon and started for a doctor, but was soon afterwards arrested.

Job Dowling's Funeral.

Many years ago, I was one of a party in Washington, D.C., when South and North met with each other in convivial life. One of the party was a Canadian man, member from Western Pennsylvania, whose homestead was in the Allegheny hills. He was an admirable story teller. I recall somewhat lately, now that he is gone, how he would illustrate the history of a clan of Virginians. The story was a part of the Congressional canvassing. One occasion he got across the Potomac River to the little village of Virginia. He was in the midst of a group around the tavern. While treating and talking, a procession of men, which looked like a funeral. He asked who was to be buried?

"Job Dowling," said they.

"Poor Job!" sighed the General. He was a poor fellow and a good natured fellow. I follow, I think, that he was a Canadian man and the others he killed, but mostly on the donations of his neighbors. So poor Job is dead, is he?"

"No, he isn't dead, really," said they. "He is still here, but he is not here to bury him."

"But is General, he has got too infernal all-fired live to live. We can't afford him any more. He's got to go. The grass began to grow over his shoes—his everlasting life that he put out one of his eyes to save the trouble of walking when out of camp."

"But says the General, 'this man is not here. It will digress your audience. Try him while longer, can you?'"

"Can't, too late—coffee cost \$1.25. Must go on now."

About this time the procession came up and halted. When the General proposed, if they would let Job, who he would bury, be buried here on the monument, the eyes of the coffin opened, and Job looked up at us, the coffin stopped, and his eyes were asked.

"Is the corn shelled?"

"No, not shelled."

"Then," said Job, as he lay down, "go on with the funeral!" The Hon. & S. Co., in *Harp's Magazine for May*.

The Vatican and Germany.

Roman Catholics have been deceiving themselves for some time that the present ecclesiastical struggle in Germany would terminate the dispersion of the empire into weak and petty principalities which precluded material progress, hindered the development of the nation, and enabled the emperor to rule as a despot. The emperor's policy of Ultramontanism very directly by legislation which has admitted of no quibbling or evasion. The successful, sturdy blow at the continuance of the empire has, however, shown that the Vatican had at last met its match. Some of the Bishops recognized the force of the arguments in favor of the authority of the State, and were away by the influence of the Government.

A European correspondent of the Cincinnati Gazette says there were schemes of reconciliation started by the clergy, and a message had even been sent to Rome warning the Pope and his advisers that the instruments to the empire rule had been so far overthrown that there was a danger of their snapping asunder. But this appeal was sneered at. Indeed, it furnished the pretext to issue the Encyclical of February 5, which has caused so wide a discussion. It is the Pope declares that the laws regulating the Church in Germany in general, and Prussia in particular, are null and void. This effectually disposed of the attempt to terminate the conflict, which is the effect of the Pope's action, and the elections of the people are withdrawn from the Empire and centered upon the Vatican. There will be no difficulty in understanding why there have been late still more stringent measures contemplated in Prussia against the Vatican. The Church of Rome similar to the enactments against the Jesuits, and why it has been held necessary to hold under a process of Church dismemberment.—N. Y. *Times*.

It is a remedy that has been used for centuries, and is now being brought to the attention of the public by the late Wm. F. & S. Co., Boston.

CATION TO HOUSEWIVES.—Owing to the increasing cost of vanilla beans used in the manufacture of Extract Vanilla, the proprietors are being threatened upon the market, purporting to be pure vanilla, but prepared principally from Yucca bark. This has caused the manufacturer less than the manufacturer's cost, and the manufacturer is being threatened with a lawsuit for the use of Yucca bark. EIGHTH DAY.

THE THIRLOW MURDER.

(Continued from yesterday's issue.)

THE CASE.

The case of the Queen, John Josey, for the murder of Jane Boulton, in the Township of Thurlow, near Belleville, on the 2nd day of September last, was now called.

The case is one which is of great local interest, the prisoner being a resident of the town, and the unfortunate girl whose death on the occasion was also a former resident of the town.

The prisoner, who is a young man of apparently about 25 years of age, of a calm complexion, appeared to be rather depressed in his demeanor, but otherwise exhibited no signs of emotion.

He was accompanied by Mr. S. D. Bartlett, appeared for the prisoner, and Mr. T. C. Tillingham, for the prosecution.

THE JURY.

The following jury was empanelled to try the case: Jos. Geary, Stirling, Isaac Robinson, Tynes, Wm. B. Hawley, Tynes, Thomas Mott, Huntington, John McMillan, Rawdon, Samuel C. McDonald, Thurlow, Henry Knight, Thurlow, Francis Dear, Madoc, Richard A. Morris, Thurlow, J. H. Reed, Belleville, Ashel Palmer, Thurlow, Joseph Richardson, Marmora.

CHALLENGES.

On the part of the prisoner, the following jurors were challenged: Wm. B. Phillips, Thurlow; James Gammon, Tynes; Philip Clapp, Tynes; Wm. B. Hawley, Tynes; John McMillan, Rawdon; Samuel C. McDonald, Thurlow; Henry Knight, Thurlow; Francis Dear, Madoc; Richard A. Morris, Thurlow; J. H. Reed, Belleville; Ashel Palmer, Thurlow; Joseph Richardson, Marmora.

Town and Vicinity.

ENGLISH MAILS.—The English mails will be distributed at the Post Office this evening.
FIRE.—A farm house at the Ferry Point, occupied by Mr. Peter Moore, was destroyed by fire last night. Insured for \$400, which will about cover the loss.
WIFE IN AMBULANCE.—A woman, charged with a fire in Ambulance, which destroyed a wooden mill. The loss was said to be \$10,000, on which there was no insurance.
LEGAL.—In the case of Curtis vs. Herndon, in Toronto on the 29th, an order was obtained by counsel changing the venue from Whitby to Belleville.

THE KINCARDINE.—This steamer will have Belleville for Oswego at 10 o'clock on Monday, May 3rd, and will continue her trips on Monday and Thursday of each week, same as last year.
LARGE YACHT.—From the bulk of ten tons belonging to M. Geo. Anderson, Amelburg, 87 pounds of butter were manufactured in two weeks. This is a very large yield, and will, we imagine, be found very hard to beat.

HENDERSON'S OFFER.—This theatre, situated for Monday evening next in the Metropolitan Hall, Macbeth, the master piece of the "immortal" Shakespeare.

FENSE BLOWN DOWN.—The gale of last night blew down about half of the fence on the north side of the agricultural show grounds, besides doing other damage in that vicinity.

SOLITARY.—The only lodger in the cells last night was very solitary. He would have been still more so, but for the fact that another man got drunk, and attracted the attention of the police, and shared his cell.

HORSE FATE.—The horse fair, which is to be held to-morrow, promises to bring about as fine an exhibition of horse flesh as could be seen almost anywhere in the Province. Persons who admire a fine horse—and who does not?—ought to attend.

CONCRETE.—The frog opera troupe turned into full fig last night, and made the night in its early part resonant with their vocal efforts. Later on, however, the howling of the gale either rendered their voices mute, or overcame the sweet sounds of the same.

A GALE.—Last night, a very heavy wind and rain storm—a parallel in violence to which we do not remember since that memorable night in October, 1872—blew from the west. Commencing about 9 o'clock, the wind blew with great force throughout the greater part of the night, and the rain at times descended in torrents. Strangely enough, but little damage was done, and that of but trifling importance.

THE BLOWING DOWN.—The blowing down of some limbs of the trees and the blowing down of a few yards of fence being the only damage reported at the time of writing. The effect of this gale will probably be to break up the last of the ice between Picton and the Gap.

NEW PREMISES.—Messrs J. Gibbard & Son, it will be seen by advertisement, have removed to the store in the Victoria Building, corner of Front and Hotel streets. In these commodious premises, they have every opportunity for the display of their large and excellent stock of furniture, which is of the best description, and equal to any other in this part of the Province. The manufactory is in Niagara, and the work turned out is equal in excellence to the best foreign manufacture. In Mr. Kemp, who manages the business here, the public will find a gentleman thoroughly up to his business, and courteous and obliging to all who visit the establishment.

ANALYST IN TRENTO.—The Courier has an account of the Trenton case concerning which rumors were prevalent in town yesterday. It was tried before Hon. J. Jeffs Esq., and Geo. H. Gordon, Esq., J. P. George Doile called in behalf of Shannon with threatening and attempting to take away his life, by attempting to stab him, also with destroying his property. It appears Shannon and several other boys, across the river, have given rise to their bad passions, and indulge in annoying respectable people. This Shannon was so bold as to call Doile out of his house and threaten, and follow him to his home, where he took a gun, and fired at him. The Magistrate fined Shannon \$10, payable forthwith, or fifteen days in jail. Shannon went to the stone house, at Belleville.

GOOD BEHAVIOR.—In the hope of inducing a more willing compliance with prison rules, the New York Assembly has enacted a law which permits a convict after fifteen years' good behavior to be convicted sentenced for life or any lesser period of time to twenty-five years. The immediate effect of the law is to release only two prisoners, one of them a negro, nine years of age, and another a white, who is called "Old Inmate," has come to be looked upon as the father of Sing Sing.

REV. HENRY VARLEY.

A friend has handed us the following letter for publication, which will be an answer to the many inquiries which have been made as to the movements of the Rev. Mr. Varley—

"My dear Brother, I am very sorry that I cannot see you at Belleville. I am so much engaged by the continued presence of the cholera here, that I must have to stay. My intention was to stay two or three weeks at New York, but there were eight weeks, and I reached to nearly 250,000 people."

"I must return to England for the summer, and I shall be away for a long time. I am so much engaged by the cholera here, that I must have to stay. My intention was to stay two or three weeks at New York, but there were eight weeks, and I reached to nearly 250,000 people."

A serious conflagration occurred yesterday, at Kennaville, leaving nearly the whole village in ashes. The population of the place is stated as 100. Three lives were lost; their names were Bridget Barry, Mary Ann Fanning, and Margaret Daley.

THE CANADIAN ILLUSTRATED NEWS.—The Canadian Illustrated News has a cartoon representing Sir Hugh Allan in John Bull's shop—the wares being bags of money. Sir Hugh bears in his pocket some "Montreal Northern Colonization Railway Bonds."

He looks considerably annoyed and "held scared, and pointing to a bull-dog wearing a collar labeled "London Times," says: "Should you not muzzle this ugly cur of yours, Mr. Bull; the brute is constantly mauling and mauling any annoying your best customers." John Bull, standing behind the counter, smilingly replies: "Don't mind him, Sir Hugh; I beg! He's getting old and crusty; we don't mind him ourselves. He's full at backing! He can't bite!" The number also contains a portrait of Dr. Fuller, the Bishop of Niagara.

A SEVENTEEN-YEAR-OLD.—Thousands die annually from neglected coughs and colds, which in time consume the lungs, or they finally fall a victim to the disease of the lungs, when by the timely use of a single bottle of *Wilder's Cough Cure*, their lives have been preserved to a green old age.
